

Energy Sources and Electrical Generation

By John Tarilanyo Afa

GRIN Verlag Apr 2013, 2013. Taschenbuch. Book Condition: Neu. 210x148x2 mm. This item is printed on demand - Print on Demand Neuware - Technical Report from the year 2011 in the subject Engineering - Power Engineering, grade: A, Atlantic International University (Niger Delta University), course: ESE 637, language: English, abstract: Electricity plays a very important role in the socio economic and technological development of every nation. The electricity demand in Nigeria far outstrips the supply and the supply also is epileptic in nature. The country is faced with acute electricity problems which are hindering its development, notwithstanding the availability of vast natural resources in the country. The history of electricity in Nigeria dates back to 1896 where electricity was first produced in Lagos, fifteen years after its introduction in England. Despite the fact that its existence in the country is over a century, its development has been at a slow rate. In 1950, a central body was established by legislative council, which transferred electricity supply and development to the care of the central body known as the Electricity Corporation of Nigeria (ECN). Other bodies like the Native Authorities and Nigeria Electricity Supply Company (NESCO) have licenses to produce electricity in...
