Reviews

An extremely awesome publication with lucid and perfect explanations. It is actually written in basic phrases rather than confusing. You will like how the writer published this book.

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 510 pages. Dimensions: 10.9in. x 8.4in. x 1.2in. This manual, part of the new Building Infrastructure Protection Series published by the United States (U. S.) Department of Homeland Security (DHS) Science and Technology Directorate (S and T) Infrastructure Protection and Disaster Management Division (IDD), serves to advance high performance and integrated design for buildings and infrastructure. This manual was prepared as a component of the S and T program for infrastructure protection and disaster management; the overall goal of this program is to enhance the blast and chemical, biological, and radiological (CBR) resistance of our Nations buildings and infrastructure to meet specific performance requirements at the highest possible level. One of the objectives of this manual is to provide the tools and guidance to reduce physical damage to structural and nonstructural components of buildings and related infrastructure and to reduce resulting casualties caused by conventional bomb attacks and attacks using CBR agents. Although the material and the risk assessment methodology in this manual can be applied to most building types, it is intended to assist with the design and management of facilities in eight designated sectors outlined in the DHS 2009 National Infrastructure Protection Plan (the NIPP): Banking and Finance, Commercial Facilities, Communications, Critical Manufacturing, Government Facilities, Healthcare and Public Health, Information Technology, and Postal and Shipping. The purpose of this manual is to provide guidance to designers and decision makers in these sectors, to building professionals working for public and private institutions, and to first responder communities. It presents tools to help assess the performance of buildings and infrastructure against terrorist threats and to rank recommended protective measures. A primary objective of this manual is the establishment of a common framework of terminology to facilitate the transfer...
