Createspace, United States, 2015. Paperback. Book Condition: New. 203 x 127 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Questions Every Parent Has About Their Autistic Child; And The Answers. Autism is a complex disorder, and there really is no one singular way to discuss or define it. But there is one thing that is true across the board when it comes to autism: the number of questions parents have. I know what it's like to be unsure and worried about what to do for the best for a loved one with autism. I know all too well about the many challenges and frustrations that you are facing with your autistic child. When my son was diagnosed with autism in 2009, I scoured every book and website I could find looking for answers. And for every question answered, there always seemed to be three more questions related to the original, and on and on. Many resources I found were either out of date, or written with medical jargons that only doctors could understand. You probably have the same frustrations on your journey to understand autism. Fortunately you don't have to spend countless hours searching and verifying information like I did. I wrote this guide to cover a lot of the basic questions parents have, and a few you may have never thought of. If you'd like to have a better understanding of the reasons behind your autistic child's behaviors, so you can help your child more and take some of the pressure off you and the rest of your family then this is the guide for you. Here are just some of the things you will learn in Raising Children with Autism: 100 Things Every Parent of an Autistic Child Must Know -...
