## PAUL ROBERT HANNA: A LIFE OF EXPANDING COMMUNITIES

Hoover Institution Press,U.S. Paperback. Book Condition: new. BRAND NEW, Paul Robert Hanna: A Life of Expanding Communities, Jared Stallones, Paul Robert Hanna had an immense, lasting impact on education in both the United States and abroad. Over a career of more than fifty years, his diverse contributions included a curriculum design that became the standard for elementary school social studies instruction, new formulations of the community school concept for international development education, the production of dozens of textbooks, and the creation of an important resource for research in the instrumental uses of education. Yet, despite his long career and major contributions to education, there has been no comprehensive biography of Hanna available until now.At last analyzing and placing in context Hanna's vast contributions, "Paul Robert Hanna: A Life of Expanding Communities" illuminates the life of a man who played a major role in the history of education in the twentieth century. From the beginnings of his career in the rural Midwest to its peak as a leading figure in education, these chapters reveal the personal "expanding communities" of influence Hanna achieved throughout his life, including his work at Teacher's College of Columbia and Stanford University, his establishment of the Stanford International Development Education Center, the development of the analysis of the relationship between schools and modern social, political, and economic institutions, his role in founding and leading professional organizations for educators, his consulting work in East Asia, Africa, Europe, and Central and South America, and much more."
