Librarianship has been in existence ever since the progression of the human society and developed with the growth of institutions throughout the world. The primary objective of librarianship aims towards the selection, acquisition, process, evaluation, storage and dissemination of selective knowledge contained in books, periodicals magazines, encyclopedia, dictionaries, directories, computer files, CDs, DVD, Pen drives ad the internet. Essential resources must be properly organized in libraries for the purpose of effective use and retrieval. Hence the role of library classification came into the existence. Library classification is a system intended for organizing all forms of literature in a systematic order using the globally accepted notational...
