Emereo Classics, Australia, 2012. Paperback. Book Condition: New. 241 x 188 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.I've been an artisan soaper for over seven years. I found this book wonderful! Very well written with up-to-date information. The essential oil section is especially useful for knowing which essential oils that come through in cold process or hot process soap. I had to learn most of this the hard way through trial and error, and spending a lot of money on research. There is so much information in this book that was very well researched and a great benefit to the soap maker at any level. There are several techniques that are simplified from other books and information on the internet such as liquid soapmaking in a slow cooker. There are discussions of soap casting, making geodes, swirling, gemstones, hand milling, and so much more to make this a VERY complete discussion of soap making. When I started making soap, I got my education off of internet tutorials and forums as well as this book. It's perfect for beginners. It answers most of the questions a beginner has, without getting complicated or overloading with confusing information. When I made my first batches I used it as a reference. Once you master everything it talks about, then you can go on into advanced techniques. This is a well written guide to soap-making for the hobbyist as well as someone who may be considering taking their interest in soap-making to another level. The book describes how one might go about making soap with the ash and animal fats in the manner available a few generations ago, for the curious minded. If one is considering a commercial venture into selling their handmade soaps, this book describes some aspects one may wish...
