## Advanced materials and specialty liquid molding (general higher education under the Eleventh Five-year national planning materials)

By DONG XIANG ZHONG

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 328 Publisher: Machinery Industry Pub. Date :2011-06-01 version 1. Dongxiang Zhong editor of advanced materials and specialty liquid molding for the general higher education. Eleventh Five-Year national planning materials. minutes. and the next two. The book describes: advanced materials forming the principle of special and classification of liquid. metal grades and special metal materials classified materials. gypsum. graphite. ceramics. glass. classification and preparation. formulation optimization of dental wax-type polymer materials and the preparation of nano-materials. knowledge engineering and reverse engineering of key technologies; next book focuses on: Computer Engineering in the green product development in the leading role. laser sintering of metal powder and polymer melt injection molding process. casting the three materials (Note) rapid economic modeling process . pressure fused deposition polymer powder and the molding process. special thermal spray coating of metal surfaces and electrochemical engineering. It also describes several liquid molding machinery and equipment of the structure. principles. and advanced materials. rapid liquid molding method. This book is advanced materials and specialty liquid molding 'next book. as undergraduate institutions. Materials Science and Engineering. Materials...

### Reviews

*Complete guide! Its this kind of very good read through. I really could comprehended almost everything out of this written e publication. Your lifestyle span is going to be transform the instant you complete looking over this book.*

-- Reilly Keebler IV

*Extensive guide! Its such a very good read. I really could comprehended almost everything out of this created e ebook. You will like how the writer write this ebook.*
