

## Electronics The Life Story of a Technology Greenwood Technographies

By David Morton

Greenwood. Hardcover. Book Condition: New. Hardcover. 216 pages. Dimensions: 9.2in. x 6.4in. x 0.9in. *Electronics and Its History* is the first book of its kind: a comprehensive account of the history of one of the late 20th century's greatest technologies—the field of electronic devices. Some of these devices, the laser and the microchip for example, have become household words, but their origins and operation are largely unknown to the general public. Other devices that form the heart of important electronic systems are virtually unknown outside the field of engineering. *Electronics and Its History* is the first book to survey the histories of all these devices, showing how they relate to each other and to the world we live in. This work will be accessible to those without a technical background, but is precise enough for an engineer. The development of electronic devices was central to many of the most important historical events of the last 50 years, such as the introduction of television, Cold War, the Space Race, the rise of Asian semiconductor manufacturers, and the emergence of the surveillance society; this book explores them all. In addition, *Electronics and Its History* examines the fascinating stories of how scientists and engineers created these devices in the...
